Plane Report Denied
In Rio de Janeiro, the Israeli Embassy yesterday denied any knowledge of reports that Eichmann was picked up in South America. It also stated that he was on the El Al plane which returned from Buenos Aires, where it took Israeli delegates, including Minister without Portfolio Abba Khan, to the Argentine independence celebrations, and was delayed for two hours at Recife airport in Brazil late last week.

The Polish news agency PAP said that many documents exist in Poland on

Independence for Madagascar

African State with Homogeneous Population, Common Language

By E. K. WILSON

There is a difference between Madagascar and most other African countries which have become independent or are about to attain sovereignty. Few of them were ever independent; they were never a homogeneous people; they were never a single state.

Madagascar was a proud kingdom until as recently as 1940. Being an island, it has natural frontiers, not artificial ones drawn by colonial powers from another continent. It is true that the population is composed of different tribes, but they are united in a common language, Malagasy, which belongs to the Bantu group of Polynesia (the Malagasy do not remember when their forefathers came to the "Grande Ile" from Sumatra, but anthropologists assume that this migration must have taken place some 2,000 years ago).

The ancient religious concepts of the Malagasy are another strong unifying factor. The most characteristic one is the ancestor cult which is a development of the Hindu and Buddhist religions. The Malagasy are not idolaters, but they believe in the power of the dead to influence the living. The Malagasy are not idolaters, but they believe in the power of the dead to influence the living.

Real Intelligence
Madagascar, the world's fourth largest island, is usually considered a part of Africa. However, it would be more correct to call it the westernmost end of the Far East. The island is home to a population of 10 million people, with a mix of African and Asian features. It is a unique blend of cultures and languages.
